JOINERY COLOUR CLASSICS OVERVIEW

The standardised collection of our most popular wood coatings with matching coverings and hues.

The Joinery Colour Classics colours are ideal for exterior industrial surface treatment of wooden windows, doors, wooden facades, balconies, and garden furniture. The specific pigmentation of the primer and topcoat delivers exceptionally high UV durability.

The colour collection card shows Joinery Colour Classics (JCC) being applied as a translucent varnish on spruce and meranti and as an opaque topcoat on spruce.

Joinery Colour Classics are not only available as translucent and opaque, but also as equalizing colours. Simply specify which coating you require using 'T' for translucent, 'C' for opaque and 'E' for equalising.
